www.aihe.edu.au**Who should attend?**This full day course is intended for
Sonographers who want to keep
abreast of the latest developments in
Obstetric ultrasound imaging.If you do not have sufficient
experience in general sonography,
please consider enrolling in our
introductory Obstetric course prior to
attending SONO2.**Suggested Pre-course Activity**This course is aimed at those who are
proficient General Sonographers,
interested in exploring the specialty
of Obstetric ultrasound. Material
presented will be at an advanced
level, and basic ultrasound concepts
and techniques will be assumed.**Course Objectives**This course will build on the assumed
basic ultrasound techniques, and
enhance obstetric ultrasound skills.
Discussion sessions will cover current
expectations, detailed anatomy and
landmarks, and complimentary
imaging modalities.Teaching comprises lectures and
hands on scanning of both simulation
phantoms and real patients. Hands on
scanning will be conducted in small
groups.**Program SONO2**Saturday, 30th June, 2018**Latest trends in Obstetric
Ultrasound**

- 08:30 Registration
- 09:00 **First Trimester Ultrasound - have we moved beyond dating and viability?**
Latest expectations in the assessment of early pregnancy
- 09:45 **Third Trimester Essentials - Latest information regarding the growth and wellbeing of foetuses in the third trimester of pregnancy**
- 10:30 Morning tea
- 10:45 **Morphology Assessment - What are we looking at now? - Presentation by a leading clinical expert, bringing us the latest information regarding anatomy and physiology assessment expected during the morphology examination.**
- 12:00 Lunch
- 12:30 **Live Scanning Demonstration - Participants will observe and interact with a Specialist Obstetric Sonographer regarding all views required during a detailed Morphology assessment. This session will be interactive, and tips and techniques provided to gain the most thorough assessment possible**
- 13:30 **Practical Session 1 - Participants will have the opportunity to perform first, second and third trimester ultrasounds using real models and simulation phantoms under the expert guidance of our Tutor Sonographers**
- 14:30 Afternoon Tea
- 14:45 **Practical Session 2 - Participants will have the opportunity to perform first, second and third trimester ultrasound imaging using real models and simulation phantoms under the expert guidance of our Tutor Sonographers**
- 15:45 **Case study and image review - During this session you will have the opportunity to interact with our clinical experts on a variety of case studies. This session may incorporate complementary imaging modalities and investigations, and discussion around how the ultrasound examination plays a role in the overall patient management**
- 17:00 Close
